SEIZURE OF SEAL POACHER.

British Vessel Captured by American Cutter.

Berhing Sea Regulations Are Again Disobeyed.

Officials Admit Action, but Decline Discussion.

(BY DIRECT WIRE TO THE TIMES.) WASHINGTON, June 3.—(Exclusive Dispatch.) International complications, which may be serious, are threatened as the result of the seizure of a British vessel by an American revenue cutter, on the charge of violating the sealing regulations established by the United States in the Bering Sea.

A report of the seizure reached officials here today, and as far as can be learned, this report was a mere statement of the fact of the seizure. It came to Capt. Worth C. Ross, Chief of the Revenue Service, which is within the Treasury Department. It is admitted tonight that the seizure had been made, but officials refused to discuss the matter.

It was stated that the importance of the incident is such that no expression can be given concerning it until the full details of the affair are given and a complete report is available. The only American revenue cutter in the Bering Sea district at this time is the Thetis. The sealing is principally done in the Pribilof Islands.

Only a year ago the strict enforcement of the sealing regulations in the Bering Sea was productive of a serious Japanese incident, when a Japanese vessel was found poaching on the American sealing grounds, and in an encounter with revenue service men six Japanese were shot. The Japanese government then made an issue of the matter with the United States, and Laurence O. Murray, Assistant Secretary of Commerce and Labor, was sent by the President to make a special investigation and report.

The Japanese government sent M. Hiroki, then an attaché of the Japanese embassy in Washington, to make a report from the Japanese standpoint, and a careful sifting of the facts showed that the Japanese had violated the laws governing the sealing district and hence the Japanese government was compelled to acquiesce in the action taken by the American revenue service, and to let the matter drop.

DAVIS STATUE IS UNVEILED.

VIRGINIANS PAY TRIBUTE TO DEAD CONFEDERATE.

Monument Avenue Thronged With Veterans Who Are Intent Only on Honoring Memory of Their Late Leader and Politics Are Strictly Barred—W. J. Bryan Present.

(BY THE ASSOCIATED PRESS—F.M.) RICHMOND, (Va.) June 3.—Under a perfect sky, with hands playing "Dixie" and "Maryland," the remnants of the "Army of the Gray" passed through the streets of Richmond and out on splendid Monument avenue, unveiled an enduring memorial to Jefferson Davis. The event came as a climax of the reunion of the United Confederate Veterans, and every member of the body of old men who was able to walk at all took part.

That the great multitude had gathered for one purpose alone was evidenced by the attitude of the people toward William J. Bryan, who was the guest of the reunion. He was given a remarkable reception as he drove through the streets in the line of march, and cheered to the echo as he mounted the stand just before the program was given. He was given a "No, no, no," many times repeated. The objections came from everywhere, and were led by the women of the Jefferson Davis Monument Association, also Gen. Stephen D. Lee, grand commander, who presided at the stand and announced in ringing tones:

"There will be no politics here." He turned to the crowd in every direction and showed the warning, and it had the desired effect. During the ceremony, Mr. and Mrs. Bryan had occupied an inconspicuous position in the rear of the speaker's stand, out of sight of the people. As soon as his name was called, Mr. Bryan made a movement to withdraw from the stand. He realized that if he appeared before the people, a political move would be attributed to him by many, and for that reason he had opposed going on the stand at all. The prompt suppression of the calls by Gen. Lee and others saved an embarrassing situation.

FAMOUS CASE DECIDED.

United States Court of Appeals Affirms Sentence of Greene and Gaynor.

(BY THE ASSOCIATED PRESS—A.M.) NEW ORLEANS, June 3.—The sentence of the Superior Court in the famous Greene and Gaynor case, involving half a million dollars fraud in government contract work in the Savannah harbor, was affirmed today in an opinion handed down by the United States Circuit Court of Appeals.

The sentence in four years' imprisonment each and a fine aggregating \$575,000. Judge McCormick rendered the opinion and Judge Pardee dissented. The court held that the defendants were extradited for an offense for which they had been twice indicted. Replying to the contention that their offense was not extraditable under the treaty, the court held, first, that it was extraditable, and that even if the treaty did not, on its face, allow extradition for this offense, nevertheless the parties to the treaty could have taken action to make the instrument cover the offense, and that such action would have applied to a previously committed offense.

On the ground that they were fugitives from justice, the court dismissed the defendants' plea for the benefit of the statute of limitations.

JOHN MITCHELL IMPROVING.

SPRING VALLEY, June 3.—John Mitchell, President of the United Mine Workers of America, after five weeks in a hospital following an operation, yesterday walked to his home. He was in good health.

WIGHT NEW COMMISSIONER.

Republican National Committeeman from Louisiana Selected to Head Internal Revenue Service.

(BY THE ASSOCIATED PRESS—F.M.) WASHINGTON, June 3.—Pearl Wight of New Orleans, the Republican National Committeeman of Louisiana, has accepted the post of Commissioner of Internal Revenue.

Mr. Wight, who is a member of the Louisiana bar, has been in the service of the Louisiana State government for many years.

He was born in Louisiana, and has been a resident of New Orleans since 1880. He is a member of the Louisiana bar, and has been a member of the Louisiana State government for many years.

FINN LEADER IN NEW YORK.

CAPTAIN KOCK PRAISES HIS NOTED RED GUARD.

Division of Women Soldiers Led by Officers of Their Own Sex Proved Their Prowess as Fighters—Refugees Escapes European Police and Is Safe With Friends.

(BY THE ASSOCIATED PRESS—A.M.) NEW YORK, June 3.—Capt. J. Kock, leader of the famous Finnish "Red Guard," the revolutionary militia of Finland, although searched for by the secret police of Russia and all Europe, has arrived here safely and is staying with friends on the East Side of town.

There is a price of many thousand roubles on his head, but Capt. Kock declares that he will continue his work for the liberation of Finland and that uprisings greater and more terrible than those of the past will soon confront the Russian government.

The Finnish "Red Guard" consists of 10,000 men and 500 women, all armed with the latest model Mauser rifles, well drilled and capable of being mobilized in a moment.

In an interview Capt. Kock gives high praise to the women in the fighting organization. He said:

"The best soldiers in my army were the women. I had a division of women led by women officers and they did splendid service and were sometimes braver than the men. The women troops were the best shots and runners."

"In the Red Guard were the working women, domestic servants and peasant girls. We had a strong army which was excellently, although secretly, equipped."

In telling how his country was relieved of Russian oppression by a general strike and without bloodshed, Capt. Kock said:

"We disarmed the Russian police and soldiery and banished them from our country, and the women played a most important part in this work."

Capt. Kock says he organized the mutiny in the Sveaborg fortress, but failed in his project because the navy did not join and bombard the works. For his part in this enterprise Kock had to leave the country.

SCORES PROMOTION SYSTEM.

Retiring Rear-Admiral Coghlan Points Out Evils in Present Method of Training Naval Officers.

(BY THE ASSOCIATED PRESS—A.M.) NEW YORK, June 3.—Admiral Joseph B. Coghlan, who retired from the navy Saturday, in a published interview today, after advocating a big navy for this country, makes a plea for what he deems an important reform. He said:

"There is one important reform which our navy should adopt. The law of promotion should be promptly changed so as to give our senior officers more opportunity for actual practice in the handling of fleets. As it is now an officer is well along toward sixty years of age before he reaches the grade of captain and gets command of a single ship. By the time he makes him a rear-admiral and asks him to handle a big squadron of war vessels, he is about ready to quit service altogether."

"This is absolutely wrong. You cannot educate a naval officer on theory alone. You must give him practice as well. A man can study in books the art of running an automobile but if he tries it without practical experience he will find himself at the bottom of a ditch or in some one's back yard. This is equally true of the fleet commander called upon to maneuver a squadron of warships in the last year of two of his active service."

"In this test of naval skill the American officers fall short of perfection but in nothing else. They are men of education, splendid courage and superb professional technique. But our rear-admirals must be given more time to master the practical part of their duties."

SERIOUS NEWARK FIRE.

Janitor and His Wife and Child Are Burned to Death in Turnverein Hall.

(BY THE ASSOCIATED PRESS—A.M.) NEWARK, (N. J.) June 3.—Three lives were lost and thousands of dollars' worth of property was destroyed in a fire which started early this morning in Newark Turnverein Hall at No. 188 James street.

The known dead are Joseph Hoenike, janitor of the hall, burned to death in his apartment. Mrs. Joseph Hoenike, wife of the janitor, overcame by smoke and burned to death and a child of the janitor, overcome by smoke and burned to death.

The flames, fanned by a strong wind, spread with great rapidity. Eight families occupied the floors above the hall and the policemen were kept busy rescuing women and children.

ELEVATOR CABLES BREAK.

AKRON, (O.) June 3.—Ten persons were injured in an elevator accident at the plant of the Goodyear Tire and Rubber Company here today, the most seriously hurt being W. F. Starford, who may die. The cables supporting the elevator broke, causing the car to drop two stories.

AMALGAMATED EARNINGS.

NEW YORK, June 3.—The net income of the Amalgamated Copper Company for the year ended April 30, last, is shown by the annual report today to be \$1,154,400, an increase over the previous year of \$4,920,863. The surplus for the year after payment of dividends was \$2,228,088, an increase of \$1,915,105.

PENDELTON TAKES CHARGE.

PHILADELPHIA, June 3.—Capt. Edwin N. Pendleton, until recently in command of the battleship Missouri, today entered upon his duties as commander of the Long Island Navy Yard. He succeeds Rear-Admiral Tilly, who died in March.

CHINA'S TROUBLES INCREASE.

BERLIN, June 3.—Advices received here from Shanghai say that the disorders in Southern China continue to grow more threatening.

HALF MILLION TRANSFERRED.

NEW YORK, June 3.—The treasury today transferred \$500,000 to San Francisco by teletype.

 FOR SALE—BY OWNER.
MANHATTAN PLACE
 A beautiful substantial home at 11 Manhattan Place for sale. For a few days the owner of this handsome residence will offer it below value several hundred dollars. Most completely and artistically arranged throughout. Lighting fixtures equal to those found in much more expensive homes. The floors throughout very highly polished; oak and bevel plate glass artistically combined. Contains nine large rooms. Living room and hall finished in antique oak, contain handsome old gold mantle, reach to ceiling, heavily beamed ceiling and paneled walls. The cozy, attractive den, w/ mahogany woodwork, has old gold mantle with mirror and leather and silk paneled walls. The most noticeable feature of the dining-room is the large built-in buffet, which contains heavy plate and ornamental doors. 4 mirrors, mahogany woodwork, paneled walls, of silk tapestry and leather, plate rack. Kitchen buffet in style, abundance of sink and pantry room. Second floor contains large sleeping-rooms and modern bath. Two woodwork, clothes closets and cedar wardrobe which contains space for hats and wearing apparel. If you are a homeseer or investor you cannot afford to overlook this proposition. We will be pleased to show you the residence any day. The address is 1121 MANHATTAN PLACE.
FOR SALE—BIG BARGAIN BY OWNER.
 This elegant 8-room home is located at 11 Western ave., on east front lot. 11 contains front porch; art and bevel plate and glass decorations, quarter-sawn oak floors, a superb lighting fixtures throughout. Living-room unusually ample—large old gold mantle extending to ceiling with nocks and corners, heavily beamed ceiling and paneled walls. Antique oak living-room and 3 telephone connects first and second floor. 7-foot cobblestone chimney downstairs. Living-room contains artistic built-in buffet, w/ bevel plate and hard metal doors, glass kn, mirrors and equivalent window; mahogany woodwork; richly paneled walls of oak and silk tapestry. The mahogany finish is finished with paneled walls of leather, silk and old gold mantle with mirror. Bu kitchen with plenty of shelf and cupboard. 5 dainty bedrooms and modern 11 on second floor; ivory finished wicker commodious clothes closets and specially constructed cedar wardrobe. Convenient machine chest. An offering which cannot be duplicated in this city today. Home will open for your inspection any day this week between 1 and 4 p.m. 1521 WESTERN A. is the address.
FOR SALE—

JUST A MINUTE
It takes to tell you the best place to borrow money. Our patrons are universal in their praise of our methods of conducting this business.

We loan money promptly at reasonable rates without publicity and without the removal of the security from your possession. Your FURNITURE, PIANO, HOLDS, WAGONS, OR OTHER PERSONAL PROPERTY WILL secure for you the ready cash you need. Amount from \$10 upward.

Every payment made reduces the principal and at the same time makes the loan easier in all ways for you to carry. We would like to talk it over with you. Hours, 10 a.m. to 6 p.m. Open Monday and Saturday until 7 p.m.

FIDELITY LOAN CO.,
Suite 225, Mason Bldg.,
R. E. corner Fourth and Broadway.
Phones Home 77421, Broadway 5111.

AVANCE OF ENDORSEMENTS.

LETTERS and resolutions of endorsement are pouring in at the Owens River campaign headquarters, Chamber of Commerce, faster than a typewriter can copy them. Below is one of them received yesterday:

REMEMBERS DRY YEARS.

To the Owens River Campaign Committee: All that is said in condemnation of Owens River water by an evening paper and its little coterie of carpers, could with equal plausibility be said against the waters of Los Angeles River. There are many alkaline patches, as everybody knows, in the San Fernando Valley, and on the plains between this city and the ocean; and all these drain into the river. And yet water from Los Angeles River has been used for drinking and for irrigation ever since this valley was settled, more than one hundred years ago. An layo paper with Atlantic outlet or, disdared river might rail against the quality of the water of our river, and it possibly might make some layo people, who had never visited our section, even believe that Los Angeles water is not fit to drink. But people who have seen and sampled the waters of both rivers believe that there is not much difference as to quality between them. Down about Compton, and also in the vicinity of the "Cienega," there is a considerable alkali-saturated land; but up the river there is much less alkali—not enough to take account of.

To our older citizens, who have lived here through many seasons of light rainfall, during which a very serious lowering of the level of the underground level of the water in the valley has occurred, the problem is not how can we obtain water, but how can we obtain water of the quality of these "dry years" which are sure to come. According to geological records, we had less than 64 inches in the season of 1892-93; 54 inches in 1893-94; less than 74 inches in 1894-95; and in 1895-96 we had only a fraction over 24 inches; although in 1893-94 we had over 1 foot 12 inches.

But in the early 90s we had two consecutive years, in 1890-91 and 1891-92, when cattle and sheep died by the thousands, and the soil, in the summer of 1891, as I well remember, was parched for miles around the alkali dried up cienega, where cattle and horses had staled in the mud and died in their search for water and for the scanty grass which bordered these watering places.

In answer to the contention of ill-informed newsmen that the level of the underground waters is not lowered in dry years, I desire to put on record my own observations. Here, about the middle of last century, old men, about 70 years of age, told me that when rows of willows extended along the "line" of the Los Angeles River from the Pueblo almost to the sea, but as the water gradually taken out of the river for irrigation and for domestic use the willows died out until there was not one left when I came here.

LARGE VOTE PROMISED.

The colored people of Los Angeles promise to deliver a large vote for the bonds. Rev. E. F. Henderson, pastor of the People's Christian Tabernacle in the Furlong tract at Stanton Junction, yesterday began a series of practical talks on the aqueduct project, which will continue until election day. "The colored voters will go to the polls and vote 'yes' to a man," said Rev. Henderson. "They realize that this is a great thing for the working people particularly."

SEE THEIR PUBLIC DUTY.

The following resolution was forwarded to the Campaign Committee yesterday:

Resolved, That we, the Highland View and Bynum's Grove Improvement Association, approve the proposition of obtaining the Owens River water for the City of Los Angeles, water supply, and believing that such supply will be ample for the present and future needs.

HOLLOWAY CALLED DOWN.

H. C. Wither sent yesterday the following letter to the editor of the Evening News, but it was not published:

EDITOR EVENING NEWS, Los Angeles, Cal. Mr. Holloway says to you that the government's experts made an investigation and found out that it was not safe to build the Long Valley dam, and so the government abandoned the Long Valley reservoir. My impression was that the Owens River project was not being carried out by the government for two reasons mainly:

First—Lack of funds available during the construction of other approved works.

Second—Because the government realized the vastly greater value of the Owens River water for domestic purposes than for irrigation, and so they practically adopted a policy of non-interference with the city of Los Angeles to the point of the City of Los Angeles.

Perhaps you can inform me where Rancher Holloway gets his official information. I am somewhat familiar with the government report on the Owens River project, but never have come across any such statement as he makes.

In the same letter from him, he states that there is not a well south of Lone Pine that has water fit to drink in it. Is that of any significance, if true, when we know that the water will be taken from the river miles north of that place?

I was one of the committee appointed by both Congress and the State of California to investigate the Owens River project, and report our findings after an investigation on the ground. We traveled the length of the valley from Lone Pine to Bishop, and drank out of the river, the springs and the creek wherever we came across it. All of our water seemed to be of the same quality, absolutely no ill effects from it, and the analysis of the samples we took at various points, made at the University of California at Berkeley, and at the University of Southern California in Los Angeles, showed that all of the water was better comparatively than our Los Angeles River water, and was found to be unusually pure.

H. C. WITHER.

SIGNIFICANT SILENCE.

The Evening Alkaline is indisposed to continue the argument with Byron Erkenbrecher or to attempt to defend its false answers to his pointed questions.

The following letter, sent on Friday last to J. D. Hooker's anti-water-organ, has not been noticed by that discredited and routed knocker:

LOS ANGELES, June 3, 1907.—Samuel T. Chiver, Esq., Editor The Evening News, Sir: Permit me to thank you most cordially for the answers you have given to my letter. I am glad to see that you are so anxious to acquire notoriety in the matter of the Owens River project, and I am sure that the public will be benefited by your discussion of this matter.

Therefore, I will give you briefly some impressions that I have received from your replies.

(1) In the first place, you admit that Messrs. Stearns and Freeman, two of the Board of Consulting Engineers, are engineers of high standing, does it not follow that they were the ones who made the report that how long a time was necessary for their investigation? The answer you give is "no." Is it not a little strange that you should say that neither of them could afford for \$10,000 to make the investigation, in making a report upon what he considers insufficient investigation or inadequate data?

(2) You say, or give the inference, that Messrs. Stearns and Freeman, who are engineers of high standing, are not engineers of high standing, does it not follow that they were the ones who made the report that how long a time was necessary for their investigation? The answer you give is "no." Is it not a little strange that you should say that neither of them could afford for \$10,000 to make the investigation, in making a report upon what he considers insufficient investigation or inadequate data?

(3) You say, or give the inference, that Messrs. Stearns and Freeman, who are engineers of high standing, are not engineers of high standing, does it not follow that they were the ones who made the report that how long a time was necessary for their investigation? The answer you give is "no." Is it not a little strange that you should say that neither of them could afford for \$10,000 to make the investigation, in making a report upon what he considers insufficient investigation or inadequate data?

(4) You say, or give the inference, that Messrs. Stearns and Freeman, who are engineers of high standing, are not engineers of high standing, does it not follow that they were the ones who made the report that how long a time was necessary for their investigation? The answer you give is "no." Is it not a little strange that you should say that neither of them could afford for \$10,000 to make the investigation, in making a report upon what he considers insufficient investigation or inadequate data?

(5) You say, or give the inference, that Messrs. Stearns and Freeman, who are engineers of high standing, are not engineers of high standing, does it not follow that they were the ones who made the report that how long a time was necessary for their investigation? The answer you give is "no." Is it not a little strange that you should say that neither of them could afford for \$10,000 to make the investigation, in making a report upon what he considers insufficient investigation or inadequate data?

(6) You say, or give the inference, that Messrs. Stearns and Freeman, who are engineers of high standing, are not engineers of high standing, does it not follow that they were the ones who made the report that how long a time was necessary for their investigation? The answer you give is "no." Is it not a little strange that you should say that neither of them could afford for \$10,000 to make the investigation, in making a report upon what he considers insufficient investigation or inadequate data?

(7) You say, or give the inference, that Messrs. Stearns and Freeman, who are engineers of high standing, are not engineers of high standing, does it not follow that they were the ones who made the report that how long a time was necessary for their investigation? The answer you give is "no." Is it not a little strange that you should say that neither of them could afford for \$10,000 to make the investigation, in making a report upon what he considers insufficient investigation or inadequate data?

(8) You say, or give the inference, that Messrs. Stearns and Freeman, who are engineers of high standing, are not engineers of high standing, does it not follow that they were the ones who made the report that how long a time was necessary for their investigation? The answer you give is "no." Is it not a little strange that you should say that neither of them could afford for \$10,000 to make the investigation, in making a report upon what he considers insufficient investigation or inadequate data?

(9) You say, or give the inference, that Messrs. Stearns and Freeman, who are engineers of high standing, are not engineers of high standing, does it not follow that they were the ones who made the report that how long a time was necessary for their investigation? The answer you give is "no." Is it not a little strange that you should say that neither of them could afford for \$10,000 to make the investigation, in making a report upon what he considers insufficient investigation or inadequate data?

(10) You say, or give the inference, that Messrs. Stearns and Freeman, who are engineers of high standing, are not engineers of high standing, does it not follow that they were the ones who made the report that how long a time was necessary for their investigation? The answer you give is "no." Is it not a little strange that you should say that neither of them could afford for \$10,000 to make the investigation, in making a report upon what he considers insufficient investigation or inadequate data?

(11) You say, or give the inference, that Messrs. Stearns and Freeman, who are engineers of high standing, are not engineers of high standing, does it not follow that they were the ones who made the report that how long a time was necessary for their investigation? The answer you give is "no." Is it not a little strange that you should say that neither of them could afford for \$10,000 to make the investigation, in making a report upon what he considers insufficient investigation or inadequate data?

despite, shows that his analysis practically agrees with the analysis made for the city. I would like to answer other points made by you, but have already occupied too much of your valuable space. The matter, briefly stated, as appears to me, is like this: I know the city of Los Angeles needs water, and plenty of it and needs it quickly. If we don't get it soon we will be in a bad way. As an engineer, I can say, "we have simply got to have it." Knowing this as a business man who has resided here for the past twelve years, and who has been counting here since 1880, and with the general knowledge of the situation possessed by a layman, I am willing to "bank" on the report and recommendation of our own "Bill Mulholland," that whom, in my opinion, there is no more reliable water engineer in the whole country, and even further, that there is not enough money in the universe to buy him and who has been backed up by every competent engineer who has ever devoted to the subject the necessary time, thought and study to make an intelligent report.

I do not, for one, think much of the opinion of engineers whose names you do not mention who have not made such an investigation and are ready to opt out of hand any of the details of the plan, or the Owens River project as a whole. And as for the technical opinion of the ordinary layman on a proposition of such magnitude, be he newspaper editor or private citizen, I could not be willing as a business man to invest any of my own funds in the project on his personal opinion, nor refrain from entering upon the enterprise on account of the "accusations" and "suggestions" that he sets up.

No great enterprise is ever undertaken but has opposition. If Roosevelt was deterred by the voice of the obstructionist, no progress would ever be made. It is the duty of the citizen and if Los Angeles should heed the very genuine advice which is being so well rendered, she would never become what she is destined to be—the great metropolis of the Pacific.

BYRON ERKENBRECHER.

Colored Voters Favor It.

Colored voters of the Second Ward met at No. 323 Welcome street last night to discuss the Owens River bond issue. E. A. Clappitt addressed the meeting, describing the water system of Owens Valley and telling of the advantages to be gained by the city if the bond issue is voted. Clappitt has been working among the colored voters for some time and says that in almost every instance they favor the water project. Another meeting of the same voters will be held next week.

Women Indorse Strongly.

At an enthusiastic meeting of the Woman's Goldfield Mining Exchange last evening, a resolution was offered by Anna La Brigue, secretary, and unanimously adopted, indorsing the Owens River bonds, and pledging individual and collective work, for energetic promotion from now until sundown, June 12, the success of the issue.

THE OIL INDUSTRY.

MEX. PETROLEUM PAYS DIVIDEND.

SIX PER CENT. ON THE STOCK OF NEW COMPANY.

Equal to Twelve on the Old Shares, as Exchange Is Made on Basis of Two for One, and It Will Be Increased to Sixteen Shortly—Payments Monthly.

At a meeting of the stockholders of the Mexican Petroleum Company, Limited, of Delaware, yesterday, a dividend of one-half of 1 per cent, a month was declared on preferred stock. This is 6 per cent, a year, and equal to 12 per cent, on the stock of the old Mexican Petroleum Company of California, as stock is exchanged on basis of two for one. The new stock, however, increased to 16 per cent, or 8 per cent, on the new stock.

The old stock is listed on the local exchange, and the latest quotations are hovering around \$1.30. The new stock is to be listed in the East, in Mexico and perhaps in London.

Drill for Nevada.

The Nevada Oil and Development Company has shipped a rig from this city to Reno, Nev., to commence its first well on the outskirts of that city.

The same company, or at least the people back of it—the Wilson-McLeod Company and associates—will drill soon upon lands near Rhyolite, supposed to be oil-bearing. Strong indication of the presence of oil were reported to have been found a short time since near Rhyolite and an enthusiastic correspondent sent out a yarn to the effect that the fuel problem had been solved for all the mining camps of southern Nevada. The Angelenos who are going to drill there, hope to make this pipe dream a reality when their drill reaches sufficient depth.

A find of oil around Rhyolite in sufficient quantities to supply fuel would be worth as much as the finding of a few more gold bonanzas. At present coal must be brought from Wyoming or Utah or all the way from Los Angeles, the latter being what is generally used on account of its many advantages.

Ventura County Fields.

Since it brought in its first well, stock of the Elk Consolidated of Fillmore, Ventura county, has been placed on the Los Angeles Stock Exchange. It is now quoted at about 60 cents or better on the seller's price. This is the only Ventura stock now quoted.

The Channel City Oil Company, just organized at Santa Barbara, will drill just east of the Ventura-Santa Barbara county line in the former county. It has 1900 acres. Stock is being placed on the Los Angeles exchange.

The Mugu, the company organized by Santa Paula people, to work in Santa Paula Cañon, has opened a promotion office here to sell stock.

A Rather Fishy Tale.

A story which "fishy" sound has been sent out from Seattle to the effect that on their last voyage north from Port Harford the crew of the Union Oil Company's tank steamer Santa Maria imbibed too freely from the flowing bowl and in attempting to put out blight fire in the hold, mixed things up and emptied 5000 barrels of good Santa Maria oil into the sea. The story, the correspondent, the agent of the company, discovered the loss on arrival and promptly discharged every man jack from captain to cabin boy, the former returning to the farm in New Jersey, where he spent his boyhood days.

There seems to be just one thing wrong with the weird tale and that is that, like many others, it is not true. The Santa Maria was not lost, and the Union Oil Company who has been organized at Santa Barbara, is not upon the Gutierrez ranch in the Rincon, which is in a new district. The company has leased 1800 acres. The capitalization is \$500,000 and the incorporators are Santa Barbara people. Among them are James Gutierrez, W. H. Martin, John Lane, C. L. Arnold, S. B. Frost, J. L. Eisenberg, Dr. C. G. Stinson and Neal Callahan.

Another New Field.

The Channel City Oil Company has been organized at Santa Barbara, and is upon the Gutierrez ranch in the Rincon, which is in a new district. The company has leased 1800 acres. The capitalization is \$500,000 and the incorporators are Santa Barbara people. Among them are James Gutierrez, W. H. Martin, John Lane, C. L. Arnold, S. B. Frost, J. L. Eisenberg, Dr. C. G. Stinson and Neal Callahan.

ESDAY, JUNE 4, 1907.

LABOR.

AMEN GIVE UP DEMANDS.

uch Minister Is Firm and Ends Strike.

Laborite Delegates Call It Off.

onics Cowed, Tell Men to Work Again.

THE ASSOCIATED PRESS.—P.M.]

IS, June 3.—The extended strike against the government has virtually come to an end with the capitulation of the strikers, who are expected to resume work at the home and colonial ports tomorrow morning.

Lapeyre, one of the strikers' leaders, conveyed this information to the Minister of Marine Thompson at a late hour this evening. He informed M. Thompson that the Strike Committee, which in Paris, had telegraphed a following message to all ports: "The delegates have been in conference with the Minister of Marine and the Naval Committee of the Chamber of Deputies. The Minister has abandoned the prosecution of deserters and requested the navigation committee to reinstate all the officers and the members of the Naval Committee. The government's proposition in the matter of the strike would be improved. The government, therefore, immediately proposed that the strike cease."

The course of his conference with the Minister of Marine, M. Thompson said, was impossible to accede to the strikers' demands. He said, however, that the strikers would be considered if they returned to duty immediately in which case no punishment would be meted out and the ship would be requested to return to the ports at which it was voted to strike. The strikers, however, refused to return to the ports at which it was voted to strike. The strikers, however, refused to return to the ports at which it was voted to strike.

THE STRIKERS OBSTINATE.

THE ASSOCIATED PRESS.—P.M.]

IS, June 3.—Three thousand strikers held a meeting here today, after the receipt of the message from the delegates in Paris, advising the strikers to resume work. In this recommendation the strikers refused to continue the strike until the strikers' demands were met. The strikers, however, refused to return to the ports at which it was voted to strike. The strikers, however, refused to return to the ports at which it was voted to strike.

DOCKMEN WALK OUT.

THE ASSOCIATED PRESS.—P.M.]

IS, June 3.—The dockmen, who were working at the Great North docks today on the Nippon Yusen line, walked out today demanding a raise of 10 cents an hour, and a shorter day. The strikers, however, refused to return to the ports at which it was voted to strike. The strikers, however, refused to return to the ports at which it was voted to strike.

LABOR BRIEFS.

PHILADELPHIA Present Demands.

NEW YORK, June 3.—The Commercial Telegraphers' Union of America, which has executive officers, sent to each member of the board of directors of the Western Union Telegraph Company a statement of grievances, requesting a change of the company's policy. The strikers, however, refused to return to the ports at which it was voted to strike. The strikers, however, refused to return to the ports at which it was voted to strike.

WORKERS Returning.

FRANCISCO, June 3.—A large number of men from the iron trades who were working today. At the Union City, many employees reported that they were not yet out of the strike. The management expressed its confidence that all will be returned to work in a few days and that operations will be resumed on the same scale as before, the little delay as possible.

GO ON STRIKE.

JOSE, June 3.—Sixty teamsters who quit of the local teamster companies to work this morning, the companies have refused to meet their demands for higher wages. The other companies have accepted the new scale.

STRIKES Take Compromise.

NEW YORK, June 3.—A long step toward the end of the strike of the dockmen was taken today, when the dockmen returned to work. The strikers, however, refused to return to the ports at which it was voted to strike. The strikers, however, refused to return to the ports at which it was voted to strike.

SEAMEN GIVE UP DEMANDS.

Minister Is Firm and Ends Strike.

Laborite Delegates Call It Off.

Conced, Tell Men to Work Again.

THE ASSOCIATED PRESS.—P.M.]

June 3.—The extended strike of seamen has virtually come to an end. The capitulation of the men who are expected to resume work at the home and colonial ports tomorrow.

Lafayette, one of the strikers, conveyed this information to the Minister of Marine at a late hour of the evening. He informed M. de Sequeville that the strike committee, which had telegraphed the Minister in Paris, had telegraphed a message to all ports: "The strike is ended. The Minister has abandoned the prosecution of deserters and suggested the navigation committee to reinstate all the officers and members of the Naval Committee. We Make Men's Suits To Measure For \$15
And we make you the same grade of Suit for \$15 that other tailors ask \$25 to \$30 for. We give you all the style and quality that can be put into the garments.
You are not doing yourself justice when you pay double the necessary price for your clothes or put up with cheap-looking ready-made clothes, because you think tailor-made clothes cost too much. Find the SCOTCH TAILORS' establishment and you find the way to be well dressed at little cost.
We show from a thousand to twelve hundred patterns of fine spring and summer wools in the very latest effects.
Scotch Tailors 330 South Spring J. SMITH & CO.

The Packard shoe for men!
The Packard has not been cheapened to meet increased cost of material. It would be poor economy to sacrifice the reputation we have attained for the amount involved, large though it may be. Honesty in construction is an integral part of the Packard Shoe, and will be so long as we make it.
Sold at \$4.00 and \$5.00, in all styles.
If your dealer does not carry the Packard Shoe, write us for catalogue and name of the nearest dealer who does.

Harriman Talks
with Edward Lefevre, the famous Wall Street Journalist. Has pig hole brain, he says. Thinks if he is willing to risk \$125,000,000 is entitled to some return. Realizes his responsibilities. Says he never fights unless somebody fights him; when they pound, he pounds. Says he has a human side. Thinks inefficiency immoral.

The June American Magazine
In this same number, the author of "Pigs is Pigs" turns New York City in 1913 into a modern Venice, enabling you to sail up Broadway on a steam yacht.
Don't miss the June number; it is full of great short stories and remarkable articles by Ray Stannard Baker, Ida M. Tarbell, George Madden Martin and other well-known writers.

*Testimony About Social Evil
Monopoly War.*

Some Surprises Developed in Savage Trial.

The much-talked-of and anxiously-awaited political feature of the prosecution of Tom Savage came to light yesterday afternoon in Justice Chambers's court.

Testimony regarding the recent war between Nick Gwald and Savage for the social-evil monopoly of the Eighth Ward, was also given, and before the trial is over, attorneys representing Savage will, it is claimed, bring out more of the political tangle in the

Yesterday, when the Savage case was called, the courtroom was crowded. Men, women and children jostled one another in an effort to hear the testimony.

Women of the "redlight" district, arrayed in their best, thronged the corridors and made remarks as each interesting bit of evidence was drawn from the unwilling witnesses. At times the odor of perfume from the persons of the spectators became so oppressive

at the ballist was ordered to open the windows. As for the benches, they were filled with most of the first-night patrons of the cheap showhouses. Bald-headed men at there rubbing elbows with bald-headed men, and holding hands to their straining ears in order not to miss a single word. Mr. Wiley J. Phillips, to whom the accusation of Savage is credited, was first witness. The house in question was the Belmont, at No. 294 1/2 Commercial street. Phillips told the

that he had visited the place and had many women there. He was to give any accurate testimony regarding the reputation of the man was followed by Newton Hagan. He claimed that he had gone into investigation as deeply as possible. Hagan by telling of his long experience in the redeeming line. He said has worked to save fallen people years, and that he never overlooks chance.

When the character of the subject

had been called to his attention, he had gone to the place and of the girls had learned from a shadow and said "Howdy!" to him, whereupon he had become greatly interested. He finally stated that some of the girls did not pass the time of day with him, but called out "Honey," and "Come over here, Blondie," as he talked by them.

CAN'T DESCRIBE STOCKINGS.

Egan became nervous when questioned regarding the attire of the

men in the place, as if he did not know exactly the names of the various modes in which they were encased. He said that the women wore kimonos something of that kind and that the arms, actually their bare arms, were visible as high as the elbow. He further testified that some of the women wore skirts of an abbreviated kind, and that some wore stockinged feet of a kind which he could not exactly describe.

After a close examination, he admitted that he was not sure.

had seen women in still more elaborate costumes at social functions in Los Angeles, and that he had never been shocked or agitated by them. He also told the court that a woman could see a whole lot more of human anatomy at any of the theaters than was visible in the hall at Belmont.

When then told Justice Chambers, "I can't say I had seen hot chocolate," he observed to the jury while he had been there.

Journeys for Savage, in view of the

was offered, contended that it was
on the ground that it had

piece of paper with the name
of the girl, "Mary Glenn,"
the number of the room. When
a piece of paper was examined, there
was an explosion of mirth from the
others, for it was found that a tele-
phone number had also been placed
on the paper opposite the name. Ho-
oper explained that he put down the
number so that, if it should be neces-
sary at any time, he might help the
fortunate young woman.

Hogan testified that he had fourteen-year-old boys in there came a murmur of denial from the women in the court. When he testified that he had inquired of a policeman the direction to a disorderly house and had been sent to the Belmont, there was a general stir among the officials in the room. Hogan testified that he had many times to both houses, and that he had seen the same thing there every day.

HIGHER SCHOOL PAY.
(Continued from First Page.)

At \$16 per ton, sold in 1906 at \$12, and in 1905 at \$11, showing an increase of 50 per cent. for the year, and of more than 45 per cent. during the past two years. The same coal retailed seven years ago for \$10 per ton, an increase in seven years of 60 per cent. Four-foot wood that sold in 1906 for \$4 per yard, now sells for \$10, an increase of 150 per cent. Within the past two years butter has increased 25 per cent. in cost, bread 20 per cent., potatoes 45 per cent. Fresh meats (especially pork and mutton) from 15 to 25 per cent., with increases in many other valuable necessities in proportion.

Without going into further details, so runs the increase in the cost of living for teachers, as well as for all others called upon to live during these prosperous times.

LIVING HIGH, SALARIES LOW.

It will be admitted that this appalling increase in the cost of living during the past few years, but especially during the past year, has not thus far materially affected the salaries of the principals, teachers and janitors of the public schools. It is but fair to note how the earnings of other wage-earners have been affected. (Here Mr. Barr gives figures showing how wages in other lines have been increased.)

Any journeyman plumber in Stockton, working steadily at his trade, has nearly double the earning capacity of teachers in the primary and grammar schools at, to make the comparison in another way, the Stockton plumber, working steadily at his trade, can earn more during the year than can any of the ninety employees of the Stockton school department, with the exception of the principal of the High School and the City Superintendent of Schools.

Under the laws of the State a boy of 14 from the grammar schools may become a plumber's apprentice or helper. In four years' time he will be a journeyman plumber, earning \$4.50 per day, or, if he lives in San Francisco, \$6 per day. In other words, the plumber will be earning full wages at an age when the young man or the young woman is about ready to begin a four years' course in normal school or university as special preparation for teaching.

During the four years that the normal or university student is preparing for teaching, at an expense for board, books, lecture, etc., of at least \$500 per year, the plumber will be working at his trade, earning \$4.50 per day. Should the student be fortunate enough to secure a diploma, he or she may then hope to earn perhaps one-half as much as the plumber. The financial chances of the teacher may best be shown by considering the fact that of the \$271 teachers engaged in public school work in California, less than 100, or but little over 1 per cent, are now paid salaries equal to the financial wage standard accorded the Stockton plumber. So much for the financial rewards of teaching school!

TAX RATE COMPARED.

When the question of teachers' salaries is broached, it is at times popular with tax-levying bodies to raise the cry of "high taxes." The following table will show the local school tax rate, including both the county and the city or district school tax, levied in various California cities for maintaining the public schools during the present year:

Los Angeles	352
Eureka	418
San Jose	42
Oakland	458
Stockton	48
Salt Lake	48
Santa Rosa	48
Palo Alto	49
Berkeley	50
Santa Cruz	53
Alameda	59
Pomona	61
San Diego	65
Sacramento	655
San Bernardino	657
Santa Barbara	68
Riverside	68
Santa Ana	83
Ventura	144
Fresno	88

TEN MONTHS A YEAR.

Los Angeles, in common with many California cities, pays the teachers for ten months only. From the last of June to the last of September the teachers must live—without a salary. If the salaries paid teachers during the months actively employed are not sufficient for a year's support, especially when the vacation is long, they must seek other means of earning a livelihood. Such employment leads to divided interests and is quite sure to be at the expense of school work. All other regular employees of State, county and municipality are paid for twelve months in the year. Teaching would be on a better basis, both for taxpayer and teacher, if teachers had a regular monthly income to look forward to each month throughout the year. If teachers of experience are to be retained in the schools, they should receive a sufficient salary for the necessary expenses of living, not for ten months, but for the entire year.

The matter of teachers' salaries is of vital importance, not only to the teachers themselves, but to the general public as well. Our teachers are now not only the poorest paid of all our professional classes, but are much more poorly paid than the average California mechanic of today.

The teacher's calling, from its very nature, makes heavy financial demands upon one. Teachers must live and dress well. They cannot be cheap and careless in such matters. Their board and their attire cost more than that of cheaper classes of labor. Besides this, it is absolutely necessary, if teachers are to maintain their position and be effective in their work, that they spend considerable sums of money each year in the purchase of books and magazines, both literary and professional. They must also attend lectures and from time to time take special courses of instruction, all of which are expenses not called for in the ordinary walks of life.

The municipality, as the wealthiest employer of labor, can well afford to pay its teachers on at least the same basis as the individual citizen pays when he seeks the services of the carpenter, the plumber, the bricklayer or the printer.

35c Embroidery 15c

10,000 yards fine Swiss and nainsook embroidery; pretty embroidered and open designs, edges and bands, widths to 12 inches, sold regularly at 35c; marked for Tuesday at 15c yard.

NEWS REPORTS FROM CORRESPONDENTS OF THE TIMES.

STRUGGLE FOR SCHOOL BOARD.

WARM CONTEST FOR PLACES ON IN PASADENA.

Two Vacancies to Be Filled, and Several Candidates—Man Arrested Saturday on Suspicion of Being Connected With Recent Burglaries Is Released.

Office of The Times, No. 24 S. Raymond ave., Pasadena, June 4.—(Special Times Staff.)—The city will be called upon Friday to elect two members of the Board of Education to fill the places left vacant by the expiration of the terms of D. W. Lewis of North Pasadena and C. M. Parker, both veteran members, who have declined to serve longer.

Politics thus far have centered for the forthcoming election in North Pasadena, where C. H. Stearns and J. B. Beardsley are in the field, the former being called forth by the endorsement of the Citizens Committee of the Board of Trade, and the latter by representative citizens of North Pasadena.

The political squabble, from indications, will be over the selection of one of these two. Other candidates placed before the public are Harry Geoghegan, Frank S. Wallace, Dr. C. J. Tracy and a number of men who have declined through the press to participate in the race.

There is a strong feeling in North Pasadena that it should be represented on the board. Lewis has served as the champion from that section for over ten years, and is accredited with having done good work. Those opposed to Stearns, who are supporters of the board, are making the claim on the street that Stearns wants the position because of former dealings with the Board of Education, and that his fight will be a hard one.

At the beginning of the fall term in 1935 when the annual training department was introduced into the public schools, Stearns was a candidate for head of this department. Stearns holds a fine record as a student of manual training, and is considered a capable instructor in that branch of education. His name was considered by the board, but the choice of the members fell to Donald Rose, who holds the position at present. Rose was working in Bakersfield, and his candidacy was so favorably presented to the board that he was elected over Stearns.

It is claimed by the opponents of Stearns that he was very bitter over the "turn down" which he had received from the board. He had worked on the telephone with Prof. James D. Graham, at that time superintendent of schools, and Graham had promised him the telephone to stop a conversation that was extremely unpleasant to him.

This attitude, which is expected, will lead to a war of attrition between the two candidates. Both candidates from North Pasadena reside in the Fifth Ward. It is understood that each ward has a law to that effect. It has been the general custom for the wards to nominate their respective candidates, and on this ground the supporters of Stearns will make their fight. They are maintaining that Beardsley is nominated and placed in the field by three men of North Pasadena in an attempt to defeat Stearns. However, speak of Beardsley as the ward candidate.

The next three days will bring out interesting developments in the school board election.

FAILS TO PROVIDE.
Clyde O'Neill was arrested last night by Humane Officer J. McNeely on a warrant issued by Justice Klamroth on the charge of "failure to provide." He will appear before Klamroth this morning at 9 o'clock.

Sometime ago three men were arrested charged with criminal assault on Pearl Kohler, 15 years old, who is a sister of Clyde O'Neill. About this time the humane society took the little child of Mrs. O'Neill away from her and placed it in the care of a woman, Mrs. O'Neill contracted to pay \$10 per month toward the support of his child and he is now delinquent in his payment since May 11. Upon it being learned that he was about to return to San Francisco, Officer McNeely secured a warrant for his arrest. O'Neill has been separated from his wife for some time and the Kohler family has been brought into considerable notoriety.

FITZGERALD'S CONDITION.
Attorney J. C. Fitzgerald spent a comparatively comfortable day, yesterday, and at a late hour last night was reported to be apparently no worse. His condition, however, is very low and it is very doubtful if he will live many more days.

FOR JOHN MUIR.
T. P. Lukens, assisted by his wife, was the host of an evening last night in honor of the venerable man of nature, John Muir, who is visiting Pasadena as a guest of the Maryland Hotel. About thirty-five friends gathered at the home of Mr. and Mrs. Lukens on Waverly Drive and heard an interesting discourse by Mr. Muir on his trips through Manchuria, India and Egypt.

LEVY IS RELEASED.
Leo Levy, arrested Saturday night on suspicion of being connected with the burglary of the stock exchange and some of the business blocks, was released by the police yesterday on account of there being insufficient evidence to hold him. Levy says that he never was convicted of a felony and that he never served time in a penitentiary.

It was discovered today that the office of C. D. Daggett in the Dodsworth Block had been entered Saturday night or Sunday night. A desk was opened and papers were strewn about, but apparently nothing of value was taken. The office of Attorney C. C. Shank was similarly entered.

NARROW ESCAPE.
Seized with an attack of vertigo, Donald Cameron, a crankman, who is employed by the Pacific Electric Railway on a steam shovel, fell twelve feet into the machinery yesterday while working in a gravel pit near Lamanda Park.

Due to the ready action of the engineer on the steam shovel, Cameron was saved from instant death and was shut down the machinery as soon as the man fell and jumped to his assistance.

Although bruised considerably, and weakened by his sudden illness, Cameron will recover.

PALMERS FROM CAR.
While attempting to alight from a moving car on South Fair Oaks avenue Saturday night, Mrs. Danahy, mother of George Danahy, who is co-owner of the city bus, was rescued unscathed, and the back of her head was severely injured.

Mrs. Danahy, who is an elderly woman, had instructed the conductor to let her off at her proper street, and had walked to the rear of the car. The conductor walked to the front of the car, and as it approached the intersection of the car, Mrs. Danahy started to leave.

ILIER, BUT OF NOBLE LINE.

Earl's Descendant and College Graduate, but in Humble Post at Death.

SPECIAL CORRESPONDENCE.
OCEAN PARK, June 3.—(Special Times Staff.)—The Los Angeles-Pacific track roller, who died at the Emergency Hospital in Los Angeles yesterday, had been a resident here for ten years. He was 64 years of age and was of noble descent.

His father was Rev. Conan Bettridge, dean of St. Paul's, Woodstock, Can., who at one time served as town adjutant of Antwerp and was also at one time Mayor of Brussels. He was a direct lineal descendant of the Earl of Warwick, and in 1814, served on the staff of Wellington at the battle of Waterloo.

By special mandamus of King William IV he was retired on half pay for valor and services, while from the Duke of York he was the recipient of an autograph letter commending him for bravery on the field of battle.

The son, Paul, was graduated as a civil engineer from the Military College of Sandhurst, Eng. He ranked second in a class containing sixty members.

When picked up the woman was bleeding profusely and was taken at once to the Pacific Electric Emergency Hospital, where chances for her recovery were considered about even. She was later removed to her home, and her condition is about the same.

LIGHT TO COMPANY I.
Considerable speculation has been rampant over the case of Clarence Brewster, who is an employee of the Pasadena postoffice. Mr. Brewster is a member of Co. I of the Seventh Regiment, N.G.C., which is the Pasadena company. When the company was ordered to San Francisco Mr. Brewster was ordered to go. The officers of the company did not see it in the same light as the postmaster, and it looked as if Brewster would be taken in hand by a squad of men from his own company.

The change in the general order of the company being taken, as the company was not sent to San Francisco. However, to be sure of his case, Brewster had referred the case to the authorities at Washington, and has just received a report from the Assistant Attorney General, in which he states that Brewster would be under the same category as a letter carrier, and is exempted from military service.

This will allow all the discussion that has arisen, and will also aid the military in determining the Fifth Ward, he taken in the case of its members who are employees of the postoffice department.

CREDITOR PRESSURES CHURCH.
The pastor of the Lake Avenue Methodist Episcopal Church said from the pulpit Sunday that the financial conditions of the church were in a better state than was at first reported. There is only one creditor pressing for a settlement, and it is expected that the amount necessary will be paid in full. Out of a total indebtedness of \$30,000, there remains only \$500 to be paid. It is expected that the church will be able to pay all the creditors satisfied.

When it is considered that there are not many wealthy people in this church, it can be readily seen that they have worked wonders on the small sum that the church had originally set aside for the purpose of its magnificent edifice, which adds greatly to the beauty of East Colorado street.

Then the congregation was hindered by the failure of the contractor to fill his contract, and was compelled to complete the building under the additional cost of lumber after the San Francisco earthquake, brought about the building beyond the price figured on.

PASADENA ITEMS.
After months of delay in starting construction the extension of the Pacific Electric Railway line out East Pasadena yesterday the grading work yesterday to lay the grading stakes and to make other necessary surveys. The line will run east on Leavitt street from Leavitt street to beyond Hill avenue, and the North Loop cars will probably be extended over the new road when the line is completed.

A delegation of about seventy members of the Stockton Board of Trade yesterday visited the Stockton fair grounds, and were enthusiastic in their praise of the fair. Earlier in the day they visited Mount Lowe and other places of interest. The return to Stockton well pleased with their trip.

Alfred Shafer of No. 453 North Fair Oaks avenue, a youth 22 years of age, was sentenced to twenty-five days on the chain-gang for getting drunk and assaulting his mother, and then started into break up the furniture, in sentencing the boy Justice Klamroth gave him a severe reprimand.

SOCIETY NOTES.
Invitations have been issued by Miss Elin Behr and Miss Lois Allen for a large dance which will be given for the younger society set Wednesday evening, June 10, at the San Gabriel Valley Country Club.

Mrs. Thomas Easley gave a pretty-appointed luncheon yesterday afternoon at her home on South Marengo avenue. The company consisted of Mrs. Cook and Miss Hancock of Los Angeles. The dining-room was beautifully decorated with ferns and flowers. The table decorations were of pink and white.

Although bruised considerably, and weakened by his sudden illness, Cameron will recover.

PALMERS FROM CAR.
While attempting to alight from a moving car on South Fair Oaks avenue Saturday night, Mrs. Danahy, mother of George Danahy, who is co-owner of the city bus, was rescued unscathed, and the back of her head was severely injured.

Mrs. Danahy, who is an elderly woman, had instructed the conductor to let her off at her proper street, and had walked to the rear of the car. The conductor walked to the front of the car, and as it approached the intersection of the car, Mrs. Danahy started to leave.

RUMORS ABOUT SALT LAKE.

DRAWBRIDGE OVER SAN GABRIEL MAY NOT BE BUILT.

New Plan Thought to Be Adopted Involving Line Around Northern Limits of Long Beach—Ocean Entrance to Inner Harbor Being Rapidly Constructed.

LON BEACH, June 3.—The presence of a dismantled pile driver and three carloads of construction material on a Salt Lake track near the San Pedro Salt Works, has revived the story that the Los Angeles, San Pedro and Salt Lake Railroad will not build the drawbridge across the mouth of the San Gabriel, as ordered. It is rumored that it will abandon that line and will construct a road from the present line, near Burnett, around the ocean front to the north of the inland harbor and cross Cortez slough a short distance west of the Dock and Terminal harbor. The new route would be much shorter, while the bridge necessary would cost only half of the one ordered across the San Gabriel.

The fact that the Salt Lake company has been very secretive with regard to exhibiting the plans of the drawbridge, and that it has been in no hurry to remove the trestle, as ordered by the court, lends color to the rumor.

FOR OCEAN ENTRANCE.
Five feet of the proposed jetty at the mouth of the San Gabriel River have been driven, and there is great activity about the spot at which is being prepared the ocean entrance to the inland harbor. One hundred men, twenty teams, a pile driver and two dredgers are all busy.

TO TEST ORDINANCE.
R. E. Fisher, owner of a number of concessions on the pier, proposed to test the city ordinance relative to closing poolrooms on Sunday, and for three Sundays the click of ivory balls has been heard in the second story of his building. Yesterday he was arrested and the place was closed.

DISHES UNWASHED.
Housewives attempting to prepare breakfast this morning, found their water supply lacking, and meals were prepared without the morning tea or coffee and dishes went unwashed up till near the noon hour. The trouble was caused by the water company's shortage of fuel oil.

FIRE THREATENS AVALON.
Wind Happens to Be in Right Direction So the Grass Flames Do Not Sweep Into Village.

AVALON, June 3.—A grass fire swept up the hills with the speed of a race horse, alarmed the town shortly after noon today, and the fire department, with many volunteers, was called to stop its ravages. Fortunately, the wind was from the east, and the flames which started in the canyon, driven away from the town, and only this morning, the fire was prevented from reaching the town. Since the tropics, for had the wind been blowing in the direction of town, the bush and trees would have been a tinderbox, and the flames right into the heart of the village. With the burning of the hills, the flames were checked on the hillsides.

That harbinger of the summer season, the delicatest of rains, made its appearance yesterday, and "light housekeeping" is now made easy.

The "Island Villa" is again rehabilitating its reputation as a health resort. The hotel is getting in readiness to care for the largest volume of business this season that they have ever known. All the principal ones have been repaired and furnished to meet the demands.

WHITTIER.
WHITTIER, June 3.—W. P. Wason of Los Angeles was arraigned here this morning on a charge of stealing \$105 from a companion, Blaine Meade, under bonds of \$1000. The amount not being furnished by him, he was taken to the County Jail to await his hearing tomorrow. But little is known here concerning the case, both of whom are practically strangers.

Friends of Miss Jennie Gordon and Paul C. Brown were surprised to learn of their marriage at National City on Saturday. Both are well known here, but the fact of their approaching marriage was so closely kept that even the members of the immediate family were surprised at the event.

Miss Katie Hawker and James Prindle, a local oil man, were married this evening at No. 143 North Mission avenue.

BICYCLE ACCIDENTS.
AZUSA, June 3.—Mrs. A. T. Marks was thrown from her bicycle while riding on Citrus avenue last evening, and the bones of the left leg were broken below the knee. Her husband, who was just behind her on a wheel, was also thrown violently to the ground, spraining his right ankle and being bruised about the body. Mrs. Marks was brought to Hotel Brunner, where Dr. A. E. Edwards, Dr. E. H. Shank, Robert McLean, Walter S. Wright and Henry Doty, who spent Sunday at Wilson's Peak returned yesterday.

Mrs. Charles A. Gardner of East Colorado street, who has been the guest of her daughter, Mrs. Austin Miller in Oakland, for a month, returned yesterday.

Phelps for wall paper and paint. Wadsworth sells paints. Wedding announcements. Morris-Thurston Co. Open all the year round. Always at its best, Hotel Maryland, Pasadena.

POMONA.
POMONA, June 3.—The physical culture section of the Ebell Club has invited the members of all the other Y. M. C. A. clubs to a picnic at Ganesha Park Wednesday afternoon.

Mrs. H. A. Mitchell and Mrs. L. H. Frary are planning a pleasure trip to C. E. Hawley, wife and child are here from Sallow, visiting Mrs. Hawley's parents, Mr. and Mrs. Bertram Fich.

A. B. Snow and wife of Kansas City visited the former's brother, M. H. Snow, here.

At present \$12,000 a month is being expended here in street improvements. Deputy County Tax Collector Frank Wheeler has garnished the wages of 147 Japanese laborers hereabouts in order to secure the poll taxes of the little brown men.

SUIT MAY BE DISMISSED.
Santa Monica Request for Cheaper Car Fare May Be Granted—Pleasure Resort Projected.

SANTA MONICA, June 3.—It is within the range of probabilities that the suit, now pending in the Supreme Court, involving the 5-cent car fare question on the Los Angeles-Pacific electric line, as relating to territory within the city limits, will be dismissed. The committee of City Councilmen who visited General Manager Gabel for a conference on the fare question, report Mr. Gabel as having stated that his recommendation to the railroad company would be favorable to the granting of the concession. The result of the carrying out of this recommendation will be to encourage that section lying east of Seventeenth street, and the Decker-Colyer Company expects to put on a passenger and freight stage line. The route will lie up the beach over the Malibu range, as far as Sawtelle. Since the health and pleasure resort is to be established. The gates of the Malibu ranch have been ordered thrown open for all who seek the healing sulphur springs. Should the demand justify it, there will also be a gasoline launch service to the beach.

PERMITS NECESSARY.
Hereafter builders who neglect to secure permits from the city will be prosecuted for that neglect. The new ordinance makes it the duty of the building inspector to see that all new houses have permits.

SAN PEDRO.
SAN PEDRO, June 3.—The government dredger San Pedro while working opposite the Southern California Lumber Company's wharf, struck a large anchor lost several months ago by the steamer Francis H. Leggett. Martin Lund, an expert diver, recovered the anchor, which weighs several thousand pounds and is valued at several hundred dollars.

Tonnage rates on lumber for the coastwise trade continue to tumble. The lowest charter yet reported is that of the barkentine Tam O'Shanter, which has been engaged to take a cargo from Tacoma to San Francisco for a rate of \$4. Only recently the owners of the barkentine refused an offer of \$5.50 to San Francisco. Owing to the low rates many vessels at northern ports are laying up. Several sailing vessels at Winlow are without charter.

MATHEMATICAL CHANCES.
Rev. H. Russell Greaves of the First Baptist Church will be the only resident minister in the city this summer. With an eye to opportunity, he has expressed his intention to encourage matrimonial alliances during the absence of his conferees. As president of the Young People's Union League he occupies a strategic position which will enable him to further the designs of Cupid and establish a new hymeneal record for the city.

MONROVIA MENTION.
City Marshal J. F. Miller returned yesterday from a week's vacation trip to his former home at Placerville. Mr. and Mrs. John Greaves and Mrs. H. Russell Greaves will leave tomorrow for Manhattan Beach, where they will spend the summer.

D. E. Juvinall has completed the erection of a handsome house on North Charlotte avenue and will make his home in Monrovia.

A GOOD THING.
After long experimenting, manufacturers have at last solved the puzzling problem of producing underwear which unites the two all-important features of healthfulness and comfort.

Most underwear simply heats the body and clogs the pores with perspiration. There is only one cotton underwear on the market which is knit with countless tiny holes in it, each hole locked, so that it cannot rip or mesh stitch—wholly unlike any other mesh garment ever produced.

Being soft, stretchy and air-open, this underwear is specially suited to hot zones. There is just the right amount of cloth between the holes to absorb the perspiration and the innumerable apertures in the fabric to ventilate the body and at the same time dry the garment. The healthfulness and comfort of this underwear must be experienced—they cannot be described.

Each garment is identified by the trademark "TOROSKNIT" and, best of all, one can buy it for fifty cents. Delighted users of this underwear say that it is the only really cool underwear for a hot climate. It is cut with tailor care to fit, washes perfectly and is very durable.

ALL INJURED IN AUTO WRECK.

Two Women and Two Men Thrown Out of Machine When Steaming Gear Breaks.

RIVERSIDE, June 3.—An automobile, speeding along Victoria avenue last evening at the rate of forty miles an hour, suddenly became uncontrollable as the result of an accident to the steering gear, and crashed with terrific force against a tree at the side of the street. The occupants, two Los Angeles couples, with the chauffeur, were thrown out.

The injured are: Mrs. Julia Hubbard, Los Angeles, ribs broken and internal injuries; Miss Ella Johnson, of San Bernardino, compound fracture of right hip; Will H. Sharp, of Needles, scalp wound; Harry V. Gelder, of Chicago, traveling salesman for Crump Brothers, bruised.

They were taken to the Riverside Hospital. The surgeons say Miss Johnson cannot be moved for three months. Mrs. Hubbard has been taken to her home.

The machine was completely wrecked. The driver of the machine was F. C. Moore, of a San Bernardino garage. He said the couple had engaged his car at San Bernardino and had been on a sightseeing trip over the valley.

The accident happened shortly after they came down from Victoria hill. Had the steering gear broken a few minutes earlier, on the steep grade of the hill, the accident would probably have resulted in one or more fatalities.

NATIVE SONS' OFFICERS. These officers were elected, last evening, by Los Angeles Native Sons of the Golden West. Past President, George Burkhardt; President, J. Bannister; First Vice-President, Eugene W. Canfield; Second Vice-President, S. C. Miller; Third Vice-President, Dan Farmer; Marshal, A. L. Cron; Financial Secretary, J. Payne; Recording Secretary, Theodore Herzog; Treasurer, Henry Brodtk; Trustee, Dr. E. M. Lard; and a banquet and speeches.

HOTEL CREDITORS. A meeting of the committee representing the bondholders, lienholders and unsecured creditors of Hotel Wentworth will be held Thursday morning at 10 o'clock at the rooms of the Wholesalers' Board of Trade, Equitable Bank building, to discuss plans for a final settlement. The committee of seven authorized at the last meeting of creditors includes Shannon, Grandall, William L. Yard, C. E. White, C. E. Bennett, C. E. Richards, E. E. Biles and Robert Gaylord. It is said representatives of San Francisco stockholders will attend the next meeting, when a plan of settlement may be suggested.

ACADEMY OF SCIENCES. A meeting of unusual interest is planned by the Academy of Sciences for Wednesday evening at Symphony Hall. This will be the closing of the season and a special programme has been prepared. Beside the summing up of the year's work of the academy, an address will be delivered by Rev. E. F. Mills on Southern California, as a place for literary and scientific investigation, and a lecture on "Russia and the Scientific Men," illustrated by stereopticon, will be given by R. R. Baumgardner. Admission will be by ticket only, and cards may be obtained from H. O. Collins, No. 414 Henne building.

TANGLE STILL SERIOUS. The affairs of Henry P. Barbour, former promoter and real estate operator in this city and Long Beach, are still in a serious tangle. Attorney in the case now pending in bankruptcy said yesterday that it will take a long time to realize on Barbour's "leavings," and that no dividend will be declared for a considerable period.

HUNDRED-YEAR STATE. The members of the One Hundred Year Club will meet next Tuesday for election, and other business. Unless the state is broken, the following named officers will be re-elected: Mrs. E. W. Webers, president; Mrs. E. E. Egerton, vice-president; Mrs. L. P. Little, secretary; Mrs. J. F. Duane, treasurer. Perhaps the only change will be in the directorate.

RIVER LEVEES HOLD WELL. (BY DIRECT WIRE TO THE TIMES.) HANJON JUNCTION, June 3.—[Exclusive Dispatch.] With the gauge at Yuma a little over twenty-nine feet the levees to night are holding well and the indications are very satisfactory.

KEEPING CLOSE WATCH. (BY THE ASSOCIATED PRESS—A.M.) IMPERIAL, June 3.—The Colorado River this morning stood at the 29.10-foot level. It is expected the river will reach a considerably higher point. Officials of the Southern Pacific have been wishing for the high river to test the protective works thoroughly and indicate that their wish is to be granted. The stream lake is 23 feet of reaching its highest record. The breaks in the government levee on the Arizona side tend to relieve pressure on this side. The damage to Yuma farmers by breaks is not known accurately, but is not believed to be serious.

ESTIMATE BUREAU. The Times, Los Angeles, address your estimate plainly to "Estimate Bureau, The Times, Los Angeles," not to "The Editor." The estimate will be numbered as received at The Times office, and distribution of cash will be made in that order. First correct or correct estimate received will secure the first cash award.

Each class, \$100 will be the award for first nearest correct estimate; \$20 for the next nearest estimate; \$10 for the third; \$5 for fourth; \$1.00 each for the next fifteen, making a total of \$150 in all.

The total registration at the last city election was 52,354. The number of votes cast was 31,388. The total registration for this election is 53,500.

The greatest number of votes cast heretofore at a special election was 10,767; against the bonds, 755.

Estimate Coupon. Owens River Water Bond Election. Estimate total vote at. Estimate vote in favor of bonds at. The difference between the total registration and my estimate cast is the number of citizens who have so little civic pride as to neglect to vote on a question of vital importance to Los Angeles.

SOME OF THE TESTIMONY

Below we present some of the testimony that was taken during the investigation into the curability of Bright's Disease and Diabetes that caused the announcement from San Francisco that these diseases are now cured.

Testimony of Mr. Edward Short, of the San Francisco Call and Col. Wm. Hawkins, of the United States Customs Service, San Francisco.

Q. Mr. Short you are cited as one of those who have been cured of Bright's Disease or Diabetes—diseases alleged to be incurable, according to medical authorities.

A. That is correct. It was Diabetes.

Q. How long were you under treatment?

A. It was nearly a year before I was right.

Q. Did you have a physician make a test to determine whether or not there was a complete elimination of the sugar?

A. Yes, I had two. I had both of the physicians who make the original diagnosis make the tests, and they both reported normal.

Q. Were they surprised?

A. Intensely so. One of them told me I could pass for insurance.

Q. Will you tell us about it?

A. It was about five years ago my heart began to trouble me. My normal weight of two hundred pounds was so reduced, my friends hardly knew me. I kept but little, and was steadily losing weight.

Q. I made application for membership in a fraternal order, and the examiner, selecting me, I then consulted a physician, who promptly diagnosed my case as Diabetes. He was Frank and told me I could not live long, and was steadily losing weight.

Q. I was told that my case was Diabetes, and was steadily losing weight.

Q. I was told that my case was Diabetes, and was steadily losing weight.

Q. I was told that my case was Diabetes, and was steadily losing weight.

Q. I was told that my case was Diabetes, and was steadily losing weight.

MINES AND MINING.

TESTING PLANT TO BE PUT IN.

PORTLAND, OREGON, COMPANY HAS LOCATED IN THIS CITY.

Building Has Been Leased on San Fernando Street—Miners Can Have Ore Tested in Any Amount—Description of Cyanide Process Owned by This Corporation.

One of the latest additions to the mining industries here is the installation of offices and ore-testing works by the Garvin Cyanide Extracting and Development Company of Portland, Or. They have leased for a term of years offices in the Equitable Savings Bank building at First and Spring streets, and a large brick building, Nos. 1436 to 1442 San Fernando street for the testing works. Probably nothing pertaining to the mining industry has happened that is welcomed more by the mine investor, merchant or manufacturer than the establishment of a complete testing works in this city.

To the mine investor a work of this kind means that when a proposition is presented to them they can have a thorough test of the ore made, not a simple assay of a small specimen, but a working test of from one ton to a carload, which will not only prove the value of the ore, but will also determine whether there is any known method by which the same can be treated commercially.

To the manufacturer, a testing works of this kind means that the mine owners will come here to have their ore tested, and when they are here they are sure to look for machinery.

To the merchant, it means that if the mine owner comes here with his ore for test and buys machinery, he is sure

also to buy supplies here.

Several times in the last few years the subject of a testing works for this city has been discussed by the business interests, but nothing definite until now.

For two years the Garvin people have been operating the largest testing works on the Coast in Portland, Or., where they are employing a staff of twenty chemists and engineers. They report having had success in that district, where they are installing large reduction works for various mines.

E. J. Garvin of Portland is the inventor of a cyanide process used by this company. The advantages claimed for it are that ores subject to treatment by any modification of the cyanide process can be handled with equal efficiency and at very low cost with a plant that is very inexpensive. It is not claimed that pres not amenable to ordinary cyanidation can be treated.

The plant consists of a cylindrical tank with conical bottom and a small cone extended within the larger to secure more perfect pulp distribution, the crushing being done by stamp batteries or in cyanide solution. The pulp flows over a series of amalgamated copper plates attached to wires with electric wires, the current keeping the plates soft and in good condition, so that any coarse free gold is readily amalgamated thereon.

From this tank the solution flows into the main tank, where the thin slimes are withdrawn from the top by a centrifugal pump and forced in at the bottom to keep the charge in circulation, without separating the coarse and fine material.

The solution and pulp then flows into oblong boxes on either side, where, by means of revolving cylinders submerged in mercury and with electric wires attached, the gold and silver are precipitated and formed into an amalgam. After the charge has been freed from its gold and silver, the tailings are run to waste.

As the pulp can be freed from the water by large settling and the weak solution reused, there is a big saving when water is scarce and expensive.

The testing plant will have crushing, sizing and concentrating machinery, besides a complete cyanide plant.

PLAYHOUSES.

(Continued from Fifth Page.)

at back and watch his brew and keep it hot without letting it burn.

The Belasco players being as experienced as Mr. Detrichstein in the matter of farces, did their share last night in "All on Account of Eliza," and the result was something to tickle the risibilities. John Daly Murphy gave a delightful character study of a dear old German, Frank Hochstetl—a study that was as delicately finished in its details as if the boisterous farce had indeed been a gentle comedy. Hochstetl is the hero of the play, and a genuine hero at that—even though Della, his housekeeper, proves to be his Waterloo.

Excellent work was done by Richard Vivian as Walter Hochstetl; by Lewis Stone as Frank Donovan, proprietor of the American Hotel; by Howard Scott as Jeremiah Haskins, sexton and undertaker, and by William Yernace as Joshua Appleton, a druggist.

The make-up of the women was so drolly in keeping that when they first came on the stage they were hardly recognizable. All played their parts with hearty abandon—Adelle Farrington as Della, Eleanor Carey as Mrs. Lavinia Appleton, Florence Smythe as Mrs. Tabitha Haskins, Lillian Berg as Miss Alice Lennon, and Marian Albertson as Eliza.

The members of the new orchestra, under the director of Victor Shertzer, acquitted themselves with much credit—almost, indeed, as if they had played together for years. Instead of for the first time last night. They were heartily applauded after each number, by their grateful audience.

Sunday Times Pictures.

Owing to a regrettable delay in a freight shipment of the mounting board used with possible to get a study out with last Sunday's Times. Now the board arrives in time to get one out with next Sunday's issue. The series will be resumed on Sunday, June 8, with even prettier and more picturesque views than those already shown.

Just the
Right
Heat

No matter what you may wish to cook, the New Perfection Oil Stove will give you just the right degree of heat instantly. No uncertainty with this stove. It's the perfect oil stove—embodies new features, new principles. On washing and ironing days the
